Art Unit: 2143

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 are allowed.

The following is an examiner's statement of reason for allowance:

The present invention is directed to a method and system for providing an E-mail service through a portable terminal with a wireless Internet access function. The independent claims 1 and 4, identify an uniquely distinct feature "after receiving the E-mail messages, removing the multimedia data from the E-mail message, storing the multimedia data in an internal local memory, and adding uniform resource locator (URL) information of a server on which multimedia data is stored as a predetermined format string to the E-mail message".

The independent claim 7, identifies an uniquely distinct feature "<u>if it is determined that</u> the link information includes the predetermined format string, wherein an E-mail recipient can access data stored in a VOD server by selecting the multimedia link information from within an opened E-mail".

The closest prior art, Landress discloses a system and method for providing interactive and customizable digital full-motion, animated and static multimedia content, fails to anticipate or render the above underline.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance."

Application/Control Number: 09/943,016

Art Unit: 2143

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey C. Pwu whose telephone number is 571-272-6798.
